Toyota Landcruiser Club (Qld) Inc.

Since 1972

about tlcc

The Toyota Landcruiser Club (Qld) Inc. was formed in 1972 and is one of Brisbane's oldest and most respected four wheel drive clubs. Our main focus is on four wheel driving, fun and friendship, welcoming families, couples and singles. Our club also welcomes all vehicle makes and models including 'soft roaders'. You do not have to own a Toyota to join us.

The TLCC has a management committee, made up of our own members who have volunteered their time. They are there to keep the administration aspects of the club functioning and to represent the club on behalf of its members at various larger functions and gatherings. Apart from the many four wheel drive outings, the club also offers social activities and educational programs.

The TLCC runs an education program for members. We have a group of volunteer, qualified instructors who donate their time and knowledge. The sole purpose of this course is to further improve driving skills and general knowledge about four wheel driving, safety and vehicles.

Our general meetings is on the last Monday of every month at the Mt Coot-tha Botanical gardens auditorium starting at 7.30pm, except for long weekends when it will be held on the Tuesday following the last Monday.

We welcome you to come along to one of our meetings and say hello.

4 Wheel Driving

The Toyota Landcruiser Club (Qld) Inc. runs trips all year round to various parts of our wonderful country and through varying environments. We aim to ensure our members become more aware of their surroundings whilst enjoying the great outdoors. The club runs trips that are rated from very easy / scenic through to extreme. Each member is able to participate on any of the trips dependant on their vehicle type and experience.

Most of our four wheel drive outings are either day trips or run over a weekend, however we do conduct extended trips several times a year to places such as the Simpson Desert, Cape York, Tasmania, Victorian High Country, the Kimberley and outback Queensland. We have access to many private properties as well as using our surrounding state forests, national parks, private 4WD parks and the sand islands.

out in the desert...

Driver Education

The Toyota Landcruiser Club (Qld) Inc. runs education programs several times a year (numbers permitting) that allow our members to become more confident in all aspects of four wheel driving. The course, run by our accredited club instructors, covers all aspects of four wheel driving such as basic vehicle maintenance, trip preparation, basic first-aid, map / GPS reading, recovery safety and general four wheel driving skills. The course also allows new members to become more accustomed to club procedures, socialise with existing members and build confidence in their own abilities off road.

themed events...

traditional fun...

group days...

Throughout the year the Toyota Landcruiser Club (Qld) Inc. enjoys a range of social events that complement our desire to 'head bush'. These social activities include such events as our annual trophy presentation dinner, progressive dinner dances, organised group dinners, social day trips to various places of interest, trivia nights, car rallies and end of year Christmas break-up. The club also participates in bigger events such as the annual four wheel drive corroboree and environmental clean up days around Queensland.
